**Email:** tonyonyangoomondi@gmail.com

**Website:** <https://github.com/yNOtOmosh>

**Phone:** +254757727498

## **PROFESSIONAL SUMMARY**

I am a budding junior developer with strong skills in web and Software development, as well as experience with programming languages such as Python and C together with web development tools such as HTML5, CSS, JavaScript. I am also proficient in Linux and have a strong desire to learn new technologies, such as ReactJS, Docker and software frameworks. I have recently completed my studies and am now seeking an apprenticeship or junior role in the field of Software Engineering. I am currently a student at the ALX SE program learning new and more skills to better my approach in solving problems during development.

## **WORK EXPERIENCE**

**January 2023 – April 2023**

### **INDUSTRIAL ATTACHMENT, NATIONAL YOUTH SERVICE HQ.**

I was an attaché at the National Youth service attached to the ICT center. I was able to carry out tasks such as Network and Hardware maintenance, installation of software, System administration and troubleshooting system maintenance. Not only was I able to build on my Social and communication skills, but also be able to interact with customer through the help desk and system training of employees.

## **EDUCATION**

**September 2019 – December 2022**

**BACHELOR OF BUSINESS INFORMATION TECHNOLOGY, KABARAK UNIVERSITY**

I am an undergraduate student who has studied Business Information Technology. During my studies, I have gained knowledge and skills in various areas including, Accounting (cost and financial), Software Engineering, Object-oriented Programming using C# and C++, Database Management, and Web Development. These units have provided me with a strong foundation in the field and I am confident that I can apply this knowledge to real-world business situation.

## **ADDITIONAL SKILLS**

- Python (programming language)
- C# and C++
- HTML5
- JavaScript
- Google apps script
- Linux distributions (kali, ubuntu, fedora)
- MySQL
